SUPERINTENDENT'S MESSAGE

Learning is an individual process. One should never blame his failures on the school he attends or the teachers he has. He should always strive to do a little more than is required or assigned. He should take advantage of the opportunities provided him and meet the obstacles squarely and wholeheartedly, never giving up but always going forward. The National, State, and Local interest in education demands a first-rate system of schools where every child can have a full opportunity to benefit from that system.

PRINCIPAL

MR. WALTER L. STAMPLEY

PRINCIPAL'S MESSAGE

I have been connected with the Vidalia High School since the school year of 1949-50; the last three years, as your Principal. I, with several of the others teachers, have seen our school grow from an enrollment of 51 in the 1949-50 session to 321 in the 1960-61 session.

During this period, additions to the curriculum have been made in music and home economics. The physical education program has been expanded, one addition having been football to the athletic program.

In the spring of 1959, the faculty of Vidalia High School began a study of the total educational program of the school. The purpose of this was to determine the strength and weaknesses of our program. After the study by the faculty was completed, a group of Louisiana Educators representing the Southern Association of Colleges and Secondary Schools, visited our school to evuluate the educational program. At the conclusion of their visit, a report was made to the Southern Association of Colleges and Secondary Schools.

In December of 1960, the Vidalia High School, for the first time, was accredited by the association.

All of us are proud of our high school -- a wonderful product of the efforts of our pupils, teachers, employees of the central office, school board members, and patrons. With their support our school will continue to grow.

CONGRATULATIONS SENIORS

We congratulate you upon your attainments and high ambitions.

Wood-using industries and Tree Farms have played a part in your past. We hope they will be still more important in the future.

Dear Bill

I think you know that when I first knew you (last year) I didn't like you, I detested you in fact. Well this year I guess I began to know you better. Now I really like you. I think you are a swell little guy. I like your stupid little jokes, they really kill me! Ha! I wish you the best in the future & hope we will be friends forever. I know I take up a lot a room I hope you don't mind.

Love
Ann
